

Fairbanks Post Office

Design by: Ray de la Reza Architects
Construction by: WM Dillard & Associates

Project Name:
Fairbanks Post Office

Location:
Houston, Texas 77040

Project Size: 33,610 SF
Completion: April 1995
Building Type: Postal Facility

Owner's Representative:
USPS

The Fairbanks Postal Facility is full-service post office and neighborhood distribution facility serving northwest Houston, freestanding on a 10 acre site. The building itself is an attractive 33,610 sf facility housing a distribution/ sorting work room, with look-out gallery, locker and break room facilities, as well as a full loading dock and supervisory offices. The site also includes an extensive fenced and gated delivery fleet and employee parking area.

The public area includes a full service postal facility with rental box lobby and a "Quick-Post" retail facility. The finishes include decorative brickwork and ornamental metal, extensive millwork, and a well-landscaped site, typical of the numerous post offices constructed by Dillard & Associates during the late 1990's.
